Consolidated costing for design, implementation, Botpress configuration, production deployment, testing, documentation, training, and support.

Budget-fit MVP · total professional fee cap

₹6,500

PREPARED FOR
Northstar Apparel

PREPARED BY
Visqora

PROPOSAL REFERENCE
VIS-NOA-2026-1030

ISSUE DATE
30 October 2026

QUOTE VALIDITY
15 calendar days

DELIVERY TARGET
5 business days after inputs

01 · EXECUTIVE SUMMARY

What the client receives

One bot · one storefront · one production domain

This budget-fit proposal delivers a focused MVP: one adapted static clothing storefront, one embedded Botpress support assistant, a compact approved knowledge base, essential safety testing, deployment, and handover. The scope is intentionally limited to remain within the client's ₹5,000–₹7,000 budget.

ONE-TIME FEE

₹6,500

Total professional-fee cap, inclusive of supplier tax if applicable.

BUDGET PILOT RECURRING

₹0/mo

Botpress Free on the client's existing commercial hosting; provider limits apply.

DELIVERY

5 business days

Starts after approved content, brand inputs, and access are available.

INCLUDED ASSURANCE

7 days

Post-launch correction of reproducible defects within accepted scope.

Included deliverables

- ✓ Responsive Northstar clothing storefront
- ✓ Search and persistent shopping bag
- ✓ Botpress Webchat installation
- ✓ One support bot in a client-owned workspace
- ✓ Up to 5 approved sources
- ✓ Up to 15 acceptance questions
- ✓ Desktop and mobile production checks
- ✓ One consolidated revision round
- ✓ Quick-start guide and 30-minute handover
- ✓ Seven-day post-launch defect period

Ownership and budget boundary: provider accounts, billing, content, configuration, and business data remain client-controlled. The ₹6,500 cap covers Visqora's professional services only; optional Vercel Pro, Botpress upgrades, domains, and usage overages are paid directly by the client.

02 · ONE-TIME IMPLEMENTATION

Professional service breakdown

Fixed scope · INR

WORK PACKAGE	INCLUDED OUTPUT	AMOUNT
Discovery & solution planning	Confirm MVP scope, ownership, support route, acceptance criteria, and release plan.	₹500
Knowledge preparation	Review and organize up to 5 approved documents or pages supplied by the client.	₹750
Bot configuration & safety	Grounded answers, scope control, fallback, data-safety rules, and catalogue pricing.	₹1,500
Static storefront adaptation	Adapt the existing one-page clothing storefront with supplied branding, products, sizing, and policies.	₹1,500
Webchat integration	Botpress embed, standard branding, loading behavior, and production connection.	₹750
QA & acceptance testing	Up to 15 questions, essential safety checks, responsive checks, and production smoke tests.	₹500
Production deployment	One deployment, public URL verification, and documented rollback step.	₹400
Documentation & handover	Quick-start guide and one 30-minute owner handover.	₹350
Launch warranty	Seven calendar days of covered post-launch defect correction.	₹250
Fixed professional service fee		**₹6,500**

> **Budget cap:** the client's professional-service payment will not exceed ₹6,500. If supplier GST is legally applicable, it is included within this cap rather than added above it. Third-party provider invoices remain separate.

This is introductory MVP pricing built around the existing static storefront pattern and standard managed-platform controls. Custom backend work, original product photography, copywriting, advanced integrations, and ongoing maintenance are not included.

03 · RECURRING PROVIDER COSTS

Budget launch and upgrade paths

Provider prices researched 30 Oct 2026

WITHIN BUDGET

Botpress Free + existing client host

₹0/mo

No new provider subscription within stated assumptions

- Botpress Free: $0, 100 conversations/month.
- No Botpress top-ups or overages on Free.
- Widget is installed on the client's existing commercial website or hosting.
- Suitable for a controlled low-volume launch.
- Botpress branding remains; capacity is limited.

IF SEPARATE HOSTING IS REQUIRED

Botpress Free + Vercel Pro

≈ ₹1,905/mo

$20/month before tax/overages

- Botpress Free remains at 100 conversations/month.
- Vercel Pro: $20/month and $20 monthly usage credit.
- One deploying seat included.
- Use when the client does not have suitable commercial hosting.
- Paid directly by the client; not part of the ₹6,500 fee.

SCENARIO	USD BASIS	INR ESTIMATE
Budget launch on existing commercial host	Botpress Free	₹0/year
Separate Vercel commercial hosting	Vercel Pro $240/year	₹22,865/year
Optional future scale-up	Botpress Plus $1,800/year + Vercel $240/year	₹1,94,351/year
Botpress conversation pack	$65 per additional 100 conversations	≈ ₹6,193/pack
Botpress AI credit grant	$10 automatic grant at provider threshold	≈ ₹953/grant
Additional Vercel deploying seat	$20/seat/month	≈ ₹1,905/mo

Hosting boundary: Vercel's official Hobby documentation restricts Hobby to non-commercial, personal use. A commercial launch must use the client's existing eligible commercial host or a paid plan such as Vercel Pro.

Conversion uses $1 = ₹95.27, Frankfurter reference rate dated 29 October 2026. Actual card charges depend on the provider's invoice currency, exchange rate, bank fees, taxes, usage, and future pricing changes.

04 · OPTIONAL SERVICES

Costs outside the fixed scope

Only charged after written approval

OPTIONAL ITEM	PRICING BASIS	GUIDE PRICE
Ongoing care plan	Monthly usage review, unresolved-question review, one knowledge update, and up to 3 support hours.	₹5,000/mo
Ad-hoc support	Configuration, troubleshooting, content maintenance, or deployment assistance.	₹1,500/hr
Additional revision round	One consolidated feedback list within the existing architecture and content model.	₹2,500
Additional knowledge sources	Review and upload beyond the included 20 sources.	₹300/source
Additional acceptance tests	Design, execution, and recording beyond the included 50 questions.	₹150/test
Additional website or brand	Second deployment using the established solution pattern; content supplied by client.	From ₹7,500
Additional language	Localized bot instructions, reviewed content, UI copy, and language-specific testing.	From ₹8,000
Order/helpdesk/API integration	Discovery, authentication, API work, error handling, privacy review, and tests.	From ₹15,000
Custom domain	Registration, renewal, transfer, and DNS charges vary by domain and registrar.	At cost

Not included unless separately approved

- Order tracking or account access
- Payment, refund, or cancellation actions
- CRM and helpdesk synchronization
- WhatsApp, voice, or social channels
- Legal review or policy authoring
- Custom analytics dashboards
- Product catalogue ingestion at scale
- 24/7 monitoring or uptime SLA

No surprise charges: optional work starts only after the client approves a written change description, fixed estimate or rate, and delivery impact.

Payments, schedule & acceptance

MILESTONE	EVIDENCE	SHARE	PAYMENT
Kickoff	MVP scope, supplied inputs, access, and provider-account ownership confirmed.	50%	₹3,250
Launch & handover	Production checks, quick-start guide, handover, ownership, and release evidence complete.	50%	₹3,250

Indicative delivery sequence

Day 1	Day 1–2	Day 2–3	Day 3–4	Day 5
Kickoff & access	Knowledge setup	Build & configure	Test & revise	Launch & handover

Client supplies

- Approved policies and product information
- Brand assets and final customer-facing copy
- Client-owned Botpress and Vercel accounts
- Website/domain access and one approver
- Timely consolidated feedback

Acceptance standard

- 100% of critical tests pass
- At least 90% overall applicable tests pass
- No contradiction of approved policy
- Correct fallback for unsupported questions
- No critical desktop or mobile regression

Schedule dependency: the five-business-day target begins when required content, access, and approvals are available. Client review delays move later dates by the same duration.

Cost controls and responsibilities

Transparent by design

Pricing assumptions

- One English-language bot and one commercial website.
- Up to 5 readable sources and 15 acceptance questions.
- One standard Botpress webchat embed with no custom backend.
- One consolidated revision round before launch.
- Client content is final, accurate, and legally approved.
- Provider subscriptions and usage are client-paid.

Usage controls

- Client reviews Botpress conversation and AI usage.
- Botpress paid plans can automatically add conversation packs.
- Vercel Pro can bill usage beyond included credit.
- Enable provider alerts and spend-management controls.
- No paid add-on is enabled by Visqora without approval.
- Provider price changes pass through at actual cost.

> **Important Botpress billing behavior:** the official pricing FAQ states that paid accounts receive warnings as usage rises and can automatically purchase 100-conversation packs near the quota. AI credit grants may also auto-recharge at the provider threshold. The client should monitor billing and right-size the plan.

Warranty versus new scope

A covered defect is reproducible behavior that fails an accepted requirement using the same approved content, configuration, website environment, and platform capabilities. New features, changed policies, provider outages, client changes, new integrations, or usage-limit exhaustion are not warranty defects.

Validity and provider variability

This professional-service quote is valid for 15 calendar days. Third-party prices are research snapshots, not fixed resale prices. Botpress, Vercel, domain registrars, tax authorities, banks, and currency markets may change the final recurring charge.

Approval

Approval confirms the fixed scope, assumptions, exclusions, milestone payments, client-owned provider billing, and change-control process described in this proposal.

Pricing sources & calculation notes

Accessed 30 October 2026

1. **Botpress pricing.** Free and Plus plan prices, included conversations, AI usage, white-label availability, storage, overage packs, and billing behavior.
   https://botpress.com/pricing
2. **Vercel pricing.** Hobby, Pro, included network usage, team seats, overages, add-ons, and tax caveat.
   https://vercel.com/pricing
3. **Vercel Hobby plan.** Official restriction to non-commercial, personal use and included usage limits.
   https://vercel.com/docs/plans/hobby
4. **Vercel Pro plan.** $20 monthly platform fee, one deploying seat, $20 usage credit, additional seats, and on-demand billing.
   https://vercel.com/docs/plans/pro-plan
5. **Frankfurter exchange-rate API.** Reference rate of $1 = ₹95.27 dated 29 October 2026.
   https://api.frankfurter.dev/v1/latest?from=USD&to=INR

Calculation basis

CALCULATION	FORMULA	RESULT
Vercel Pro monthly	$20 × ₹95.27	₹1,905.40
Botpress Plus monthly equivalent	$150 × ₹95.27	₹14,290.50
Recommended monthly equivalent	$170 × ₹95.27	₹16,195.90
Recommended annual providers	$2,040 × ₹95.27	₹1,94,350.80
Botpress 100-conversation pack	$65 × ₹95.27	₹6,192.55

> **Decision recommendation:** start with Botpress Free on the client's existing commercial website to stay inside budget. Upgrade Botpress only when usage approaches 100 conversations per month; use Vercel Pro only if separate commercial hosting is required.

This proposal is a commercial estimate, not tax, accounting, or legal advice. Provider terms and invoices control third-party billing. Amounts are rounded for client readability.
